

## WIFI

1. Which IEEE standard do Wireless LAN networks conform to?
  - A. 802.13
  - B. 802.1
  - C. 802.11
  - D. 802.3
2. Which organisation performs inter-operability tests of WiFi devices?
  - A. IANA
  - B. WLAN Professionals
  - C. IEEE
  - D. Wi-Fi Alliance
3. Which Wireless LAN network component is responsible for centralized control & management of a WLAN?
  - A. An access point
  - B. A network switch
  - C. A wireless LAN controller
  - D. A wireless client
4. The infrastructure components of a wireless network are generally interconnected by:
  - A. RF links
  - B. Switches
  - C. Clients
5. A wireless LAN is often an extension of the \_\_\_\_\_ of a wired network
  - A. Core
  - B. Distribution
  - C. Edge
  - D. Hub
